

4th Edition

Challenges on early-life exposure

Virtual

27
sep
2021

Session 1 - From chemicals exposure to the risk of vulnerable populations

Keynote lectures Chair: TBD

Speaker

13h30 Opening session

14h00 EFSA's risk assessments of contaminants – consideration of vulnerable groups

Hans Steinkellner | EFSA | Italy

14h30 European Partnership for the Assessment of Risks from Chemicals - PARC

Christophe Rousselle | ANSES | France

15h00 A novel landscape in chemical risk assessment called Exposome: current applications and opportunities

German Cano-Sancho | INRAE | France

15h30 Coffee-break

15h45 Fish and mercury: the choice matters

Marta Esteban López | ISCIII | Spain

Oral communications

Speaker

16h15 TBD

TBD

Session 2 - Health effects of early-life exposure to chemicals

Keynote lectures Chair: TBD

Speaker

14h00 Adverse effects of mycotoxin exposure in the first 1000 days of life

Luís Pereira da Silva | NMS | Portugal

14h30 Interplay between food contaminants and intestinal microbiota: effects of early-life exposures on health

Claúdia Marques | NMS/CINTESIS | Portugal

15h00 How maternal exposure to aflatoxin B1 impacts the development of progeny intestinal immune system?

Manuela Ferreira | University of Coimbra and Champalimaud Foundation | Portugal

15h30 Coffee-break

15h45 Cohort studies to assess early-life exposure: Generation XXI cohort study

Ana Cristina Santos | ISPUP | Portugal

Oral communications

16h15 TBD

16h30 TBD

16h45 TBD

17h00 Closing session - Best Poster Award
